

Comfort

Preface

People experience comfort in different ways. For some, comfort can be found in nature or solitude. For others, comfort can be found within the whirlwind of every day life. For this photo book, I chose to document my comfort zone. For me, comfort comes most naturally when I am at the barn.

Of a serene nature

Peaceful and calm

Relaxing through the moments

And weathering through the storm

Feeling gentle breezes

That come and go as they may

Nature takes its course

All throughout the day

Poem by Ronell Warren Alman
